The Hunter, at Muswellbrook, was upset in the timber, at Alford, and the passengers nearly drowned. One mail-bag was lost, and some luggage. The river is going down fast.

The Quarter Sessions were opened to-day by the Police Magistrate. The juryman from Ulmarra, Southgate, and other places were in attendance, but no District Court Judge reached here, they were bound over to attend at 10 o'clock to-morrow morning, and then to wait the arrival of the Judge. It is not thought likely that the business will commence before Monday. Jurymen living at a distance suffer much inconvenience from being compelled to remain in town, the state of the roads preventing their return home.

## TELEGRAPHIC SUMMARY FOR ENGLAND.

His Excellency the Governor and the Countess of Belmont.

The Taff of the Government has been passed through committees. The proposals for doubling the ad valorem duties and imposing a tax on wheat and flour have been rejected. The ad valorem duties remain at 5 per cent. Two motions which, if carried, would have been equivalent to votes of want of confidence in the Government have been rejected.

The report received from England of the filibustering expedition against the colony has not caused so much excitement as might have been expected. Two very rich reefs have been discovered near Tenterfield.

The Intercolonial Cricket Match was again won by Victoria; that colony was 49 runs ahead of New South Wales on the two innings.

The weather continues variable throughout the colony, though the summer has evidently passed.

There is to be a grand military display to-day. The new batteries recently completed are to be opened to-day, and to be manned by the naval force now in harbour, and our volunteers.

There has been a good demand for colonial securities at finer rates.

The export markets have been very active. Recent wool sales, European fairs, stocks still excessive.

Exchange on London, 1 per cent. premium for bills at sixty days' sight.

ARRIVALS FROM ENGLAND: Bruckley Castle, Strathmore, British Flag, Hawkebury, Cornwallis, Loch Urr, Winifred.

## HOW TO SAVE £10,000.

TO THE EDITOR OF THE HERALD.

Sir,—One great evil of protective duties is that they make the public pay taxes which do not go into the revenue of the country. This is well illustrated by the example of the duty on candles.
